

Subject to the terms and conditions set forth below, the following limited warranties are extended to the original owner of an Heritage™ Series residential grade water boiler for the boiler and supplied parts and/or accessories manufactured and shipped on or after April 30, 2012:

ONE YEAR LIMITED WARRANTY ON HERITAGE SERIES RESIDENTIAL GRADE BOILERS AND PARTS / ACCESSORIES SUPPLIED ON HERITAGE SERIES BOILERS.

The company warrants to the original owner that its residential grade water boilers and parts/accessories comply at the time of manufacture with recognized hydronic industry standards and requirements then in effect and will be free of defects in material and workmanship under normal usage for a period of one year from the date of original installation. If any part of a residential grade boiler or any part or accessory provided by the company is found to be defective in material or workmanship during this one year period, the company will, at its option, repair or replace the defective part.

HEAT EXCHANGER WARRANTIES

The company warrants to the original owner that the heat exchanger of its residential grade boilers will remain free from defects in material and workmanship under normal usage for time period specified in the chart below of the original owner at the original place of installation. If a claim is made under this warranty during the "No Charge" period from the date of original installation, the company will, at its option, repair or replace the heat exchanger. If a claim is made under this warranty after the expiration of the "No Charge" period from the date of original installation, the company will, at its option and upon payment of the pro-rated service charge set forth below, repair or replace the heat exchanger. The service charge applicable to a heat exchanger warranty claim is based upon the number of years the heat exchanger has been in service and will be determined as a percentage of the retail price of the heat exchanger model involved at the time the warranty claim is made as follows:

Years in Service	Service Charge as a % of Retail Price																											
	1-5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25+							
Cast Iron Water	No Charge					5	10	15	20	25	30	35	40	45	50	55	60	65	70	75								

NOTE: If the heat exchanger involved is no longer available due to product obsolescence or redesign, the value used to establish the retail price will be the published price as shown in the company repair parts pricing where the heat exchanger last appeared or the current retail price of the then nearest equivalent heat exchanger.
